RECEIVED DNR
MAR 22 1972
Lake Mich. Dist.

Dear Mr. Loppnow:

I am writing in response to your letter of March 7, 1972, in which you state your company's plans to defer planting a tree screen around your proposed sludge disposal site until operation of the site becomes imminent.

This plan is fine with us. Our policy is that the site will have to be prepared in accordance with the approved plans prior to its use for sludge disposal. However, we set no timetable as to when these preparations take place.

Please notify us as early as possible if and when you do decide to use this property. We will then be happy to work with you.

Very truly yours,
Bureau of Air Pollution Control
and Solid Waste Disposal

SUBJECT: Lehrer Sanitary Service Request to Open Burn Dutch Elm Diseased Trees

Please find attached a letter from Lehrer Sanitary Service requesting permission to open burn Dutch Elm diseased trees.

It is the opinion of this office that an exemption to open burn not be granted. Past experience has indicated that open burning conducted by Lehrer Sanitary Service caused nuisance conditions to the operation's surrounding neighbors. It is felt that additional nuisance conditions would occur should permission be granted to burn.

Since this request involves the lifting of an order, I am referring this to you for your disposition.

Dennis C. Weisensel

Dear Mr. Lehrer:

A field investigation was conducted at your disposal site on September 16, 1971, to determine if the requirements in my letter dated August 31, 1971, had been completed.

The gate and sign that I requested in my letter were in existence. The site now seems to be operating in conformance with the Solid Waste Disposal Standards. However, you are reminded that additional inspections will be conducted in the future to determine continued conformance.

Should any questions arise concerning this subject, feel free to contact this office for assistance or clarification.

Very truly yours,

FROM: Bruce Stevens

SUBJECT: Kaukauna - Town of Buchanan, Outagamie County - Solid Waste Disposal

On August 17, 1971, we met with Mr. James Lehrer, owner and operator of a solid waste disposal site which adjoins the south city limits of Kaukauna.

Complaints had been received from residents of premises situated on 20th Street, Kaukauna, and from Dale Morey, Warden, DNR, that smoke was observed in the vicinity of the disposal site on July 17th, 18th and 20th, 1971.

During the meeting with Mr. Lehrer it was learned that burning had been done, on the above dates, in the Lehrer disposal site. The material burned, according to Mr. Lehrer, consisted of diseased elm trees and had been ignited by burning rubber vehicle tires. We observed the place of burning and noted charred remains of tree stumps and other parts of trees.

From this investigation it may be concluded that burning had occurred at the Lehrer disposal site during the July 17th to 20th period and that the burning was done at the direction of James Lehrer and which appears to be a violation of order 2A-70-11L-2.

It is therefore recommended that, since burning has occurred at the Lehrer disposal site on more than one occasion since the time of placing into effect an order to cease and desist all burning on land under control by James Lehrer, this matter be referred to Legal Services for appropriate action.

Dear Mr. Lehrer:

A field investigation of your disposal site was conducted by members of this office on August 17, 1971, to determine if your solid waste disposal site was being operated in conformance with State of Wisconsin Solid Waste Disposal Standards.

It was found that your site is being operated in relative conformance with the Solid Waste Disposal Standards, however, the following improvements must be made in 14 days from the date of this letter:

1. A gate shall be placed at the entrance of your site and kept locked when the attendant is not on duty.

2. A sign shall be placed at the entrance of your site, indicating the name of the operation, your license number, hours of operation and penalty for non-conforming dumping.

Should any questions arise, feel free to contact this office.

Very truly yours,
